

# Volgograd State University report on SDG11

VoISU is located in the geographical center of Volgograd and represents both a historical and environmental value. University's green garden and territory of outward campus is open for general public.

VoISU landscape complex is well-organized for people to go on foot, by bike or by any other transport. Pedestrian areas, student garden, stepparium and other green areas are open for general public.

VoISU has free parking area for all students and workers where they can park a rented car. The current transportation program of the University allows to see the decrease of private vehicles on campus for the last 4 years. The campus is quite far from the main road and due to the geographical peculiarities of the city itself, it is rather challenging to make it unavailable at all, that is why parking area reduction has reached its limit.
